MYSORE GOVERNMENT OFFICE.

Local Boards BRANCH.

OFFICE NOTE.

SUBJECT.

The complaint of certain residents in the municipality of Ajjampur in regard to the present site for holding Santé

In their petition dated 27th May 1897 & No 3134, to Setton Reddiappa and several other residents of Ajjampur said that when cholera broke out recently, the Taluk ~~Amildar~~ Amildar directed that Santé should be held near the travellers bungalo ~~instead~~ on the Hosdurg road instead of as theretofore near the railway stations and prayed for permission to hold their weekly fair near the railway station, as it would tend to the convenience of

S. M. J.

This is a matter in which the persons of the Board are entitled to the greatest weight. Put up draft requesting the Dy Com^r to call upon the Amildar to convene a full meeting of the Board & to transmit to Govt the Board's resolution with his remarks. Should there be a difference of opinion in the Board as to the most eligible site the detailed information as to the members for and against the different proposals submitted should be furnished

13/7

merchants and as facilities for water and shelter, which cannot be had in the present locality, exists in the site near the railway station. The petition having been forwarded for report the Dy Comr ~~forwards~~ submits a memo by Mr Knight. General asst Comr and ~~approves~~ ~~notes~~ Comr recommends ~~that~~ a third site near the Police station as the best locality for a Sanitarium, till the ground is required for building purposes.

From the English memo of 27/6/95 submitted by the ~~Dy~~ Ex General asst Comr, it would appear that previous to the appearance of cholera at Ajjampur, Sanitarium was being held near the railway station, which is low and marshy. The majority of the towns people are

ew 22794/2.7154.94 Dy 13/6/95.

reported to be against the holding Santé in the ongoing place on the ground that ~~the~~ it affords merchants facilities to ~~~~ to use short weights and measures. The petitioners who signed the memorial and Mr Moongiappa (one of the municipal Commissioners and brother of one of the Petitioners) alone wish to hold Santé near the railway station with selfish motives. But none of the residents of Ayyampu wish to hold Sante near the travellers bungalo, the present site.

The Assistant Commissioner is silent in regard to the conveniences of shelter for drinking waters from rain which Petis say are available near the railway

station. Is the Dy Commissioner
~~in order to ascertain the Public state of the best site~~
May the Dy Comr

be asked to state whether

shelter from rain and convenient

of drinking water are available

in the proposed site near

the railway station, as is said

to be the case in respect of

the ~~same~~ same site near the

railway station.

ABSTRACT.

In continuation of their previous petitions pray that orders may be passed

(1) permitting them to hold the weekly fair at the market-place -

(2) allowing them to retain the palm leaf cup-boys in front of their shops as a sort of protection against the inclemency of the weather - 2

(3) to allow the carts to stand laden with food to stand at the Cherai Head Kalle which is in the Pulla High road for Examination of their contents with a view to levy octroi duty -

From

The Deputy Commissioner
Kadur District

To

The General Secretary to the
Government of Mysore

Sir,

In reply to your memo no 1530 Pet dated 3rd/8th May 1895, calling for report on Chikmagalur Town president's petition complaining of the inconvenience caused by the measures adopted for the prevention of Cholera, I have the honour to report as follows:—

I directed that the petitioners should appear before me on the 21st instant and to state their grievances, and out of 243 petitioners 69 appeared and pleaded as follows:—

(1) That because the channel was stopped for 8 days in march, all their wells are now dry in May. This in itself is absurd, more especially as the water

complained of is only allowed to flow through the town twice a week at any time as it is an irrigation channel and when it was allowed to flow all the bandahs which it fills were allowed to fill to overflowing so that the surrounding wells in the vicinity should not suffer. This part of the petition is absolutely groundless and without foundation.

(2) As regards the market place during the Cholera the market was held outside the town for three weeks and as it caused inconvenience to the general public it was moved back to the town. It is now being held in the old bandy stand about 200 yards from the original place and which was altered at the instance of the Municipality who consider the present place more suitable in every way.

(3) The petitioners complain that there is no water, but it is close

to the Basavanahalli tank,

2ndly that it is too far. This 200 yards from the old market place;

3rdly that it will be cold if the tank is full, but there is a high hedge and belt of trees between.

4thly the present ground is uneven;

5thly no shelter. As regards these two latter objections it is proposed to level the ground and erect a market place.

2. The present spot was selected as it is much more roomy than the old place and in every way more convenient, and when the present extension of the town is built over, will be more central.

3. The Vice President informs me that he took the opportunity last shandy day to ask the cartmen and others having stalls at the shandy whether they were satisfied with the new site, and they all without exception stated that the new site suited

them better than the old.

4. In conclusion, I may add that the petitioners all appear to be men of small standing in the town and that their petition appears to me to be frivolous and groundless and unworthy of consideration, as I believe the secret of their grievance to be that owing to the fact of the old site being cramped cartmen were glad to clear out as quickly as possible and so sold their goods cheaper to these petitioners, but now that the cartmen have more space and can get away easier they are able to stop until the evening and so obtain their prices.

5. The two petitions received with your memo under reply are herewith returned.

I have the honor to be

Sir

Your most obed Servant

MYSORE DEWAN'S OFFICE
PETITION DEPARTMENT.
REGD. No 2809/R
DATE 25 Aug 25

Most honoured Sir

We, the inhabitants of Chickanayakanahalli most humbly beg permission to approach your honour's precious presence with the pour petition which, we regret very much to say, the indifferent and intolerable attitude of the Municipality of this place towards your honour's pour petitioners has necessitated to submit, and crave your honour's indulgence and pardon for the liberty we have taken in proceeding to divert your honour's benevolent attention upon these important State topics which demands immediately more attention than the one we have made ourselves bold to bring to your honour's notice.

We beg to state that we are extremely sorry to have to enter upon a subject, which has caused a great deal of annoyance to your honour's pour petitioners and such gone against the officers of the State to whose care your honour has been pleased to entrust the administration of the part of the province. We beg to state in this connection that it is far from our mind any slur on the work turned out by the Municipality. Our petitioners sincere object being to represent the intolerable grievances they are labouring under and make an humble request for redress

After repeated appeals to the attention and mercy of the officers concerned that we Submit this humble petition in the hope that your honour will, with your usual generosity towards the Suffering poor, readily respond to the reasonable requests made by your honour's loyal Subjects whose confidence and esteem you have won by wielding the affairs of the State under your honour's control with a firm and masterly hand.

We beg to State that, as the pressure that was brought to bear upon us by the inhabitants of this place was Sufficient to allow any delay on our part, we prayed for immediate relief by means of a telegram despatched on the 27th ult.mo. We leave it to you to imagine how we relish the present administration of this part of the Province when we are Shut out from all hope of getting food and drink which are indespensably necessary for a man's life

It is an admitted fact that this town is always clamouring for water and that, especially during Summer, Scarcity of water is felt to such an extent, that unless the Government come forward to render to Seasonable help and do all that lies in their power to furnish the town with an adequate Supply, the poor inhabitants are necessitated to have recourse to the use of any dirty water they have to come in contact with; and the consequence is, as is well known to your honour, that the town becomes a prey to all Sorts of epidemics.

Many of your honours petitioners
have been suffering from the disastrous
effects of dirty and muddy water and although this
was made known to the Deputy Commissioner and Mr. Knight
the General Assistant Commissioner and Municipal
Vice President they have been quite silent over the
matter to the great dismay and disappointment
Of your honour's humble petitioners

Most all the wells in the town used to
be fed especially during Summer, by a Tank about
four miles from the town, which sends its water
through channels and V shaped drains constructed
for the purpose. But this year the poor petitioners
were not been afforded the privilege of getting water
into their wells, for the simple reason that the
Municipal Park and the Bangalows are to be
supplied with water in preference to the houses of
the middle and poorer classes, which is well attested
by the fact that, whenever water is let out from the Tank,
Municipal peons are ordered to keep watch over the
channels so that the water running through may not
find its way into the wells of persons other than
those that have the good fortune of living in the Bungalows.

In this connection we beg to invite
to your honour's attention to the fact that
when we submitted a petition to the Deputy
Commissioner, we received a reply to the effect
that we should dig our wells sufficiently deep
if we had no water and that the Municipal authorities
could do nothing in this direction.

We beg to bring to your honour's notice the fact, that
when the wells constructed by the Municipalities at the
unusually heavy cost are themselves drying up, there is
not the slightest probability of our wells, turning in any
way better, even supposing that we dig deeper than
at present.

Moreover the nature of the soil is such that it does not permit us to dig them deeper. Nor are we in a position to expend so much money as the Municipality. It is mainly on account of the impracticability of getting water either from the Municipal or from our own wells during Summer, that it has been the custom to get the water into the wells from the above mentioned tank for several years past.

Under these circumstances it is the humble request of your poor petitioners that your honour will be pleased to bestow your kind attention on the matter and direct the Municipal authorities here to continue the privilege, we have been in the enjoyment of for several years last, without any interruption of the kind we are at present made to experience.

I further beg to state that, in addition to the scarcity of water we are groaning under, we have been deprived of all convenience in respect of getting provision for the maintenance of our families which, we regret very much to state, are undergoing a great Starvation.

It has been the custom from time immemorial for the market here once a week in a locality which lies to the east of the main road, so that the people here may have the satisfaction of getting provisions for their families almost once in [illegible] days. It is an established fact that unless we go to the market on the day specified and purchase all the necessaries of life it is to meet the requirements of our families for at least one week.

We shall have to allow them to go without food. As the town is always suffering from dearth of provisions, we depend entirely on the chances of getting our demands answered by supplies from without.

In this connection we beg to invite your honour's attention to the fact that it is only on the market day that we can succeed to procure any article of food and that on other days we cannot provide ourselves even with vegetables.

Under these circumstances we leave it to you to judge how much of inconvenience is caused to your petitioners by shifting the market to a locality which is about three miles from the town. We beg to state further that those that are in well to do circumstances occupying a position to command the employment of servants can easily afford to have the market shifted even a dozen miles away from the town.

In this connection we beg to add that, as this is a coffee growing district labour is extremely dear and that, as the labouring classes are usefully employed, the planting community are getting labourers from the Madras and Bombay presidencies to answer their demands. Such being the case we do not think that even the richest amongst us can conveniently avail himself of the services of a cooly to meet his requirements by reason of the inconvenience. Many respectable middle class gentlemen have been driven to the necessity of procuring themselves entirely at the mercy of some two or three merchants who charge exorbitant rates for the articles demanded and leave no choice to their customers as to the quality of the things supplied.

It may be urged on behalf of the Municipality that the Municipal authorities were obliged to adopt such a course for the prevention of all chances of epidemics imparting themselves into the town. In reply to this we beg permission to state that hitherto the bazaar was beneficial in a place set apart for the purpose, but now petty dealers come with their head loads and carry on their business in the main road to the great inconvenience of your peti-
tioners.

Customers from different parts of the town who cannot without great inconvenience go to the market Assembled on the main road and there with the dealers form themselves into a dense crowd So that the passers-by have to force their way through it

With these humble Statements we leave it your honour to consider whether it is the bazaar that used to be held in a corner of the town or that which is held in the very heart of it that will minimise the chances of epidemics and whether the people that go to the market which is, by order of the Municipality, held in a different locality, do not return to the town and affect the town in a way which will prove detrimental to the Sanitation of the town as it would have proved if the market had been confined to the same place.

We further beg to state that the Municipal authorities, in their over cautiousness to improve the Sanitation of the place, have been adopting a policy of unjust persecution, to testify to which we beg to invite to your honour's attention to the fact that Toddy to the value of Rs 160 was once ordered to be split, for reasons known only to the authorities concerned, to the great disappointment of the contractor.

Moreover great inconvenience is caused to your honour's humble petitioners by the strict order of the Municipality to the effect that we should remove the sheds in front of our buildings that have been in existence for several years past, causing no inconvenience to the roads and the streets under their care. Far from damaging the roads and Streets the Sheds have been of immense help to us, especially during Summer. On both sides of the roads there are the drains behind which we have for a long time enjoyed the privilege of having our sheds. So that the removal

thereof do not proceed beyond the drains

In conclusion we beg to state that
apart from grievances above represented,
there are innumerable others of minor importance,
with the details of which we do not like to tire your
honour's patience, inasmuch as it is our main object
to give your honour some insight into the principal
ingredients of the woefully intolerable sufferings
of your poor petitioners, who have always been loyal
to the throne of Mysore to maintain the
prestige of which you have been strivingly hard
yoked together, in spite of the manifold adverse
circumstances of which everyone of us is fully
conscious, with a sincere hope and firm belief
that your honour will ever be ready to accord a
patient hearing to the sufferings of the poor
subjects entrusted to your honour's care and to concert
measures for their well being, thereby relieving them
of the difficulties they are necessitated made to
undergo by the hasty and erroneous conclusions that
happen to be arrived at by the officers entrusted
with the welfare of His Highness Loyal Subjects

In which act of kindness and charity we,
your honour's humble petitioners, shall as in duty
bound, ever pray.

Most honoured Sir

Your honour's most obedient & humble Servants
The inhabitants of Chickamagalur

No.

Sir,

In reply to your official Memo No 2279 4 dated 15th Ultimo, forwarding for report a petition from Lettra Rudrappa and other Residents of Ajjampur soliciting permission to hold the weekly market on a spot near the Railway Station, I have the honor to submit the original for your Kind perusal and return a Memo of the 27th Ultimo containing the facts of the case in detail, received from the Genral Assistant Commission Mr Knight, to whom I had sent your Official Memo and its enclosure for inspection and report.

I have also inspected the different sites

sites therein referred to -

3 As it appears from Mr Knighton's report that the general wish of the inhabitants and the Municipal Commissioners, with the exception of one Mr Moorgessa, who is brother to one Gurooswattapa one of the petitioners, is to hold the Sante behind the Police Station at Ajjampura which is central and midway between the fort and Pettah and in every way suitable. I am also of opinion that the Sante may be ordered to be held there until the vacant ground is required for building purposes. If the proposal meets with the approval of Government I shall issue necessary orders accordingly.

4. The appeal petition is herewith returned -

I have the honor to be
Sir,
Your most Obedt Servt.

Dy

Read letter forwarded with General Secretary's docket No. 1274 dated 13th June 1895 forwarding a petition from Sethu Siddapah and others of Ajjampur requesting permission to hold the weekly market near the Railway Station.

Municipal members present

1 Hospital Assistant Vinodth Saroomani Pillé.

2 Mr. Y Doolahah

3 " Haji Abdul Razack.

4 " Moorgiahah.

Out of the above members with the exception of the last Mr. Moorgiahah, the others do not wish that the Sunthe should

be held near the Railway Station
as the site will not be central
and moreover is very low and
unhealthy affording no shade.
Besides this they state that when
the Smithe was held here there
were constant rumours &
short weights and measures
being used by the tradespeople
keeping petty stalls.
The Mooresplatz states that if
the Smithe is held near the Railway
Station it will be convenient for
the tradespeople to bring their goods
from the Station to the place.
The townspeople number a hundred
present including some tradespeople
from all classes of the community.
Artisans, Weavers, (Ribbons) Gloomakers,
Artizans, Innkeepers &c.
Without a single exception
we and all of these people
request a week that the Smithe

should be held near the
Police Station on the Island
which is between the Fort
and Town as the site is central
affords shade is convenient
to all parties and more
especially as it will be
impossible, if held here, for
short measures and weights
to be used. But when the
Bandhe was held on the
Railway side of the town there
were constant complaints that
ignorant villagers attending
the market were given short
measure and weight in the
goods purchased by them.

Opinion of undersigned:

I this morning inspected
the site on which the Petitioners
wish to have the Weekly Bazaar

or Sunthe held, also the one
near the Police Station and
the present one opposite the
Travellers' bungalow.

The petition is signed by 33
individuals and with the exception
of three and Mr Inoyetullah Ismail
Esquire who is another to Gomusanthurai
one of the Petitioners, there is not
another person who has come
forward and expressed a
desire that the bazaar should
be held near the Railway
Station. The advantages accruing
from the bazaar being held
where the Petitioners wish is
one sided and only convenient
to themselves, while it would
be inconvenient and opposed
to the wishes of a large majority
of the inhabitants.

Prior to the outbreak of the

Cholera the Smithe was for
about a year held near the
Amman Gate which is on the
Railway side of the town.
This site is low and unhealthy
and not conveniently situated,
and to hold the Smithe again
here would be against the
wishes of almost the entire
Community.

The request of these headsmen
is selfish and in no way
affords convenience to the
other townspeople who live
on the opposite side of the
town. Moreover, I am inclined
to believe what the townspeople
say with regard to the use
of short weights and measures
by many of them when
opportunity offers and which

the bazaar were held here would afford them ample opportunities as much as the place is away from the town and there will not be the same supervision and check exercised.

The spot where the Smithe is held is opposite the Havelleys bungalow. It has been held here since the first appearance of cholera in the town, now about six months ago. This is a very good site and next to the new Police station would answer very well for the Smithe, but some of the people care to have it held here.

The open space to the back of the Police station is conveniently situated, is elevated and there is a little shade also on the side of the road. There will be little or no opportunity for short weights and measures to be surreptitiously

introduced when Indian villages make purchases, and it will be complying with the wishes of almost all the inhabitants.

I enclose you the site under which I propose to build the block house, and should be glad to have it erected as early as convenient.

I am Sir
Your Obt Servt

OFFICE OF THE DEWAN OF MYSORE. 1895-6. 6 - AUG. 1895 L 313.

1895

From The Dy Commr Kadur Dt

To The Secretary to the Govt Dewan of Mysore.

Dated 3d August

Despatched 6th

Received —

Enclosures—No. 1

General No. [illegible] 1895-96.

No.

Reporting that he convened a full meeting of the Municipal Board of Ajjampur in respect of a site for holding the weekly market and submitting the Board's resolution with his remarks thereon.

To The 1st Commr.

It is not quite clear whether the site proposed in this letter is the same which was recommended by the D. C. and Mr Knight in the former's letter No 5 of 2nd [illegible] so, the majority of the Board's opposition [illegible]

Mysore.

No. 105

Government Proceedings No.
868
L.R. 164-94 of the 17th July 1895 requesting
to call upon the Tarikere Amildar to
convene a full meeting of the Municipal
Board of Ajjampur in respect of
a site for holding the weekly market
and to transmit the Board's resolution
with remarks.

With reference to the above, has
the honor to state that the Amildar of
the Tarikere Taluk having been trans-
ferred elsewhere and none appointed to
succeed him, the undersigned who
happened to be at Ajjampur on 22d
July 1895 convened a meeting of the

Board and fully discussed the matter with the members - Vide copy of the Proceedings herewith submitted -

2. All the members, except Rudrappa Shetti residing at Davengere, were present -

3 Three out of the 4 members present were in favor of holding the Shandy on the open space between the fort and the Petta, while the 4th member, who is a brother of one of the petitioners, differed from it, stating that Petta would be more Convenient for the purpose. On 22nd July 1895, I found the latter site in the Petta to be practically under water, and, if used as a market site, it would be a sea of mud. It would also be impossible to drain this except at a very large outlay. Besides the space is very limited. Whereas the site near the fort is spacious and quite dry, being on high ground. In the undersigned's opinion there is no comparison be-

tween the two sites in question.-

Att Spurlock

Dy Commissioner

Kadoka Dk.

Proceedings of an Extraordinary Municipal Meeting held at Bijanpur on 28th July 1895.-

Present.	Absent.
H. H. Sparkes Esq.	Rudrappa shetti
Postaya	
Moorganaya	
Khaji Abdul Razaack.	
Hospital Assistant	
X Vidvat Sivaramu Pillay.	

After discussing the question in all its points, it was put to the vote and Postaya, Khaji Abdul Razaak and the Hospital Assistant were in favour of holding the Shandy on the open space between the fort and the pettah, because it is more central, spacious, and being on higher ground is drier during the monsoons. Moorganaya, the only merchant and residing in the pettah, is anxious to have the market held in the pettah, as it is near the shops in —

which the people can take refuge, if at

ains -

The absent Member Rudrappa shetti
resides at Davangere and is stated not
to have attended the last four meetings.
The Amildar will look into this at once
and call upon him for his explanations

Note for Gen. Secretary.

The Agampur Board Contains only 4 non-official members & Commrs. The question is whether a site near the Railway Station or a site near the Fort is preferable for holding the weekly market. Out of the four members 2 merchants. Members are against ~~the proposal, the~~ changing the existing site near the R^y Station & the other two are in favour of the Fort site. From a Sanitary point of view it is evident the Fort site is preferable, but from the point of view of Convenience by way of affording shelter during rain & food drinking water the present site is preferable. The ~~Dr to~~ proximity to the R^y Station must be held to be a factor favouring the Continuance of the existing site. If it is costly as Mr Sparkes says to drain the existing site, it may be equally costly to provide shelter & drinking water in the new site. Under these circumstances it is rather difficult to decide the question. Lahore 8/8/1911 J. P. [illegible]

* one was absent but had already expressed his preference for the existing site.

Read:-

Docket from the Deputy Commissioner of the Kadur District, no 105, dated 3 Aug '95, reporting that he convened a full meeting of the Municipal Board of Ajjampur in respect of a site for holding the weekly market, and submitting the Board's resolution with his remarks thereon. (B. 25-94)

RJ 41-1

215-7
164/94

Order thereon.

It is presumed that the site now selected is the same as the one which was recommended by the Deputy Commissioner and Mr Knight in the former letter no 5 dated 2 July '95.

If so, the opinion of the Deputy Commissioner and of the majority of the Board being in favor of the site referred to in the letter read above, and sanitary and other considerations also being in favor of the Deputy Commissioner's opinion, Government are pleased to convey their sanction to the weekly market being held at Affampon at the site recommended by the Deputy Commissioner.
